**RESPONSE TO FINAL OFFICE ACTION &  
REQUEST FOR CONTINUED EXAMINATION**

Dear Sir:

18/21/2002 RHARMON 00000001 022051 09419517

01 FC:179 740.00 CH

**REMARKS**

Initially, Applicant's attorney wishes to thank Examiner Kim for the careful consideration given this case and the interview conducted with the undersigned on July 17, 2001. After a discussion of the case history during the interview, both Examiner Kim and supervising examiner, Examiner Criares suggested that the present application be refiled as a Request for Continued Examination (RCE), directed to Examiner Dwayne C. Jones, due to his knowledge expertise, and previous experience in related cases (e.g. the parent case - U.S. Patent No. 5,968,983 (the "'983 patent")).

Accordingly, in an effort to accelerate prosecution, and more finitely define the issues, Applicant's attorney is filing herewith an RCE directed to Examiner Dwayne C. Jones. To facilitate review of this case, the claims allowed in the parent case and the pending claims are presented in side by side format. For brevity and ease of comparison, the list of inhibitors of Hmg-CoA reductase specifically recited in Markush format in the '983 patent are identified with the term "Markush Group" in the comparison chart. If the claims of the respective case are identical, this is identified in the chart, and the language is not repeated.
